our clients can count on us... the right attitude... the right specification.... the right delivery.....

Hi there!!

I'm Lisa Smith, the Farrell furniture specialist at BBI. I'm here to help you in every way that I can to make certain that your furniture projects are consistently successful, ensuring minimal stress for you.

Although new to this industry, I've spent the last few months living and breathing system furniture and the manufacturing process, as well as

- integrity
- confidence
- innovation
- passion
- total commitment

INNOVATION

actually building workstations on a variety of sites across the UK! Certainly an experience, but very worthwhile!

Why Bbi?

- Integrity
- Confidence
- Innovation
- Passion
- Total Commitment

We believe that these values are essential to delivering a quality service and to meeting the demands of today's constantly evolving workplace.

We provide adaptable and lasting solutions, designed to accommodate changes in technology and employee requirements.

Whether you're looking for new office furniture, ceilings, partitions or a complete office refurbishment we are here to help.

Why Farrell? ➡

[total commitment]

www.bbi-uk.com

Farrell pride themselves and their furniture on being:

- Dynamic
- Responsive
- Competitive
- Reliable
- Technical
- Environmental

Farrell has been producing exceptional furniture solutions since 1961 by combining advanced technology with traditional craftsmanship and the highest quality materials.

why farrell furniture?

why partners furniture?

Why 'Partners' system furniture?

Partners is one system in many guises. Like the best solutions its strength lies in its sophisticated simplicity. Highly adaptable, the system has been developed into eight complementary elements, with distinct features and common engineered components.

Commonality allows parts of each element to combine effortlessly - maintaining an unbroken virtual theme. This is essential, because different environments are often required within the same workspace.

Partners is deliberately light in appearance and minimal in structure. This makes it easier to install, use and maintain. Its flexibility means that as your company evolves, your furniture can easily be reconfigured to accommodate your needs.

Partners will allow you to develop in style, with the minimum of fuss and most importantly, at a cost effective price.
